

TO 929 DOCKET PROCESSING REQUEST FORM

Please enter the following information:

Date of Processing Request: 9/3/2019

Date Due: 10/16/2019

Docket Number: EPA-HQ-OPP-2019-0274

Docket Manager: Eric Bohnenblust

Division: BPPD

Date Docket Opens: 9/9/2019

Date Docket Closes: 10/9/2019

Please provide a list of expected themes in the space below:

Themes for Human Health Risk:

Allergenicity
Antibiotic resistance
Exposure to female mosquitoes
GMOs are harmful/fatal
GMOs alter genes in humans
Disease transmission
Transfer for DNA construct to humans

Themes for Environmental Risk:

Dispersal/biological containment
Can male mosquitoes become biters
Transform gender/hermaphrodites
Endangered species
Migratory birds
Mosquito survival
Female mosquito release/female release
Super mosquitoes
Non-native mosquito strain
Effect on bats, birds, mammals, nontarget organisms
Gene introgression/change DNA of native mosquito populations
Invasive species
Opening niche for other mosquito species
Mating competitiveness

Legal Themes:

Import permit
Public hearing
Release of full EUP for comment
Informed consent/Human Study
Issue new regulations
Conformation with EPA definition of a pesticide

Other themes:

Gene drive
Penetrance
Benefits
Lab experiment vs field experiment
Dwindling number of other tools/alternates/effective alternates
Performance issues
Independent review committee
No Recall
Pesticide resistance
Pesticide susceptibility
Mistrust of oxitec
Against registration
Support registration
Request to extend comment period
Contract obligations
New paper/new information
Evidence based determination
Petition
Mass letter campaign
